

SUMMER KEYBOARDING CLASS

(Mon) JUNE 25th- (Fri) June 29th

12 PM- 3 PM

\$275

Age doesn't really matter! Everyone learns and everyone has fun.
It is really painless!!

CUT-OFF THE FORM BELOW AND MAIL IN WITH A \$50 CHECK TO REGISTER.

Every summer a group of students from all over the Washington area meet in the Mater Dei computer lab to learn to touch type. Parents have often confessed the boy or girl registered has come with reservation. Most students admit enjoying the experience by the time they finish. The kids come from Mater Dei, Woodacres, Pyle, Blessed Sacrament, Stone Ridge, Norwood, De Chantal, St. John's and Gonzaga to name a few.

Parents have told me personally "It was the most useful class my kids have taken." I have met entire families from all over the Washington area, one child at a time!

QUESTIONS: CALL: 301-520-3631
joan.obrien.walsh@gmail.com

The good news is kids use the skill everyday from then on.....for e-mail, instant messaging and of course, homework!

More than 90% of the students ask to take it again.

Each student works at his or her own computer and is *individually challenged* and *rewarded* based on their individual age, ability and accomplishments. More often than not, the students leave having enjoyed the class due to their feelings of accomplishment. Younger students typically feel they did better than they thought they would. Older students say it was not as bad as they expected.
